JAMES A GRAHAME,

BEissionary Report. We are in receipt of the forty-eighth annual report of the Missionary Society of the Wesleyan Methodist Church To Canada, in connection with the English Conference. It embraces the period from June, 1871, to June, 1872, and contains 148 pages of closely printed matter, showing the amounts collected and expended for missionary purposes, and the reports of the various missionduring the year. By the minutes of the bear Conference, beld in Montreal last June, we learn that the total actual membership of the Church within the Conference jurisdiction, which does not include either Nova Scotis or New Brunswick, hand was 69,597; there were of enrolled scholars attending the Sabbath schools of the connexion, 69,112; the total average attendance upon the weekly ministrations of the Church, 278,388; value of church property, as per returns of 1871, \$2,615,476; the total income of THE STEAMER the Society for the year was \$94,016, and the expenditures, \$87,710 46. The subjoined extracts from the reports of the several missionaries laboring in this Province under the auspices of the

Society, will be of interest of many of our readers: The Rev. W. Pollard, of this city, in his report says, "Our Indian Sabbath School is prospering. There are now upwards of 30 who attend, most of whom are adults. From eight to ten Christian men and women meet every Sabbath morning and afternoon to teach these children of the forest, Several of them can now read the Scriptures. Had we a day school at the camp, many of the children of the heathen would attend, which would bring them under the inlaence of christianity. We hope that this will engage the favorable considerstion of the Committee, and that they will supply this need as soon as possible. The work among the English-peaking population is not less encouraging. Our

congregations, both in the Church and in the Hall, are large and steadily improving. The prayer-meetings and classmeetings are well attended. We greatly need a missionary for North and South Saanieh and Royal Oak. This district is settled by a well-to-do farming popuagain lation. At present they are almost des-Aitute of religious instruction." The Rev. T. Derrick, of Nanaimo, in his report says : "We have greatly enlarged congregations, a fine spirit of hearing, happy class-meetings, and a che chool has greatly grown in numbers and general interest, thus rendering it absolutely necessary to enlarge the school department of our church edifice." Ot the work among the Indians he says: There has been a steady progress for several months. Congregation: good, and most devout attention to the preaching of the gospel. We have baptized 11 some of them a year ago pagans. Increase of Indian members, 16." Rev. C. Bryant, of Maple Bay, reports: "Our appointments are separated by great distances and the settlers much scattered, occasioning thereby considerable travel by sea and land. We have been generally blessed with physical ability and spiritual influences in the prosecution of our work. The Maple Bay congregation have shown a laudable desire to sustain work, by the erection and partial fitting up of their church, and the designation of a portion of their church lot for a cemetery; and throughout the circuit earnest desires are expressed, not only that the ministrations of the Word may be continued, but that their missionary should reside among them " Rev. G.C. Clarkson, of Sumass and Chilliwhack, says "I believe there is a general growth in grace throughout the membership of the church. Our prayer meetings during the winter have been blessed seasons of refreshing. Methodism has a strong bold

on the circuit, and there is a growing at-

tachment to all its institutions." The

Rev. A. E. Russ, of New Westminster,

reports : "This mission has been favor-

ed by the Divine blessing, during the year, with two great essentials of church

sucl. Each quarter has been cheered by conversions to God, and accessions to

life of the members of our little society. who are bolding on faithfully, and are looking earnestly for the descent of sav ing power upon our congregations." The Rev. T. Crosby, whose work is principally among the Indians, reports that his labors are divided among a population of upwards of 3,000 natives of various tribes, distributed between Nanaimo and Yale, of whom one hundred and six are enrolled members of the church Besides these," he says, "there are thousands of Indians above Yale, and on the Thompson river, and also on the coast, who are needing the gospel."

of purpose and meaning. Like everything sublime, the ridiculous is but the next step-We have a keen conception of both phases of the meaning, and have tried to adapt ourselves to this interesting occasion, by secur ing an assortment so varied that its effects will either surfeit the receiver with the pro-fuseness of poetry and tingel, or make both donor and receiver inseparable for life. We venture to caution those who send the comic ones to be merciful, and those who receive hem to exercise forbearance.—T. N. HIBBEN THE original cheap and easy Shaving

The Sandwich Islands.

Writing of the death of the late King, the the Toronto Globe has an article which will be read with interest by British Columbians. It is in substance as follows : * * "Brirish Columbia has already a direct interest in the preservation of the neutral character of the Sandwich Islands, but its future value to British commerce in the Pacific is at present incalculable. Already the White Star Line has sent out five magnificent steam-ships for the purpose of establishing communication etween San Francisco and China and Japan and there is no doubt that before very long there will be a regular service under the British flag between San Francisco and Australasia. If the islands be annexed to the United States, fireign vessels bound to or from San Francisco would be prevented from touching at Honolulu, as their doing so would be considered an infringement of the law preserving exclusively the coasting trade to American citizens; while coal from Vancouver Island to supply the requirements of steamers would be subject to a hostile tariff In ignorance of the course which Her Majesty's Government propose to adopt, it is et least satisfactory to British subjects to know that their interests are not altogether overlooked in the premise . We lears from Victoria that H. M. S. Chameleon and Scont, belonging to the Pacific Squadron, have bee: ordered to Honolula

THEATRE ROYAL -On Saturday night a good audience assembled to witness the first of an intended series of performances by the combination troupe, composed of the different panies. Several amateurs also took part in the entertainment. The audience appeared to be in anappreciative humor, and rendered any amount of applause to the efforts of the Misses McGinley and Mr. Jas. Oram. Messrs Calhoun and Freeman treated the assemblage to a Shakespearian portrayal from Damon and Pythias, and the perforance closed with the well known mutical drama of Black Eyed Musan, in which Mr. Robinson and Miss Mavrard were successful in the leading characters of William and Susan, well supported by Messrs. Calboun, Freeman, and Dennis.

THE MINISTRY -The Ottawa corresponden of the Teronto Mail, telegraphs to that journel on the 8th, the following : " A private telegram was received to-day from British Columbia, conveying the information that Mr. DeCoemos, M. P., had been entrusted with the duty of forming a new Administration in the Prairie Province, and that he had been successful. The telegram does not give the names of the gentlemen composing the Cabinet, except that of Mr Walkem, who held the office of Chief Commissioner of Lands and Works in the McCreight Administration, and who is now Attorney General. barrister in Toronto, and has two brothers at Kingston in the profession.

THE ADJUTANT GENERAL'S TRIP .- The Adjutant General, Col. Robertson Ross, has furnished an elaborate report of his trip through the Northwest, the result of his recent tour of inspection across the continent. This report is at present confidential, but it will doubtless be made public when the annual militia report is presented to Parliament. as the subject is one deeply interesting to the people of Canada. He has also prepared a carefully corrected map of the immense territories belonging to the Dominion th t lie west of Lake Superior, to accompany and illastrate his report.

FRENCH BENEVOLENT SOCIETY. - The following gentlemen were yesterday elected the managing committee for the eusuing year :-Messrs. Rueff, Kriemler, Boulet, Grelley, Tisset, Camsusa, Leslouis, Kay, Borion. The meeting was held at the Driard House, and was largely attended. To day the officers will be chosen from among the members of standing, financially and otherwise.

Two first days out had strong N. W. winds; remainder of passage to the Straits met with heavy gales from the west, accompanied with big seas. Following are passengers : Capt. J. H. Donne, J. Heywood, J. D. Selleck and wife, Miss M. E. Selleck, Ed. Selleck, Geo Frasier, J. H. Holt M. Rehfish, R. B. Thompson, W. J. Ehle, wife and child, Mrs. Frost, D. Williams, J. S. Miller, J. P. Ludlow, Mrs. Good and child, Jas. Masterson, wife and two children, J. M Johnson, W. F. & Co.'s messenger, and Il in the steerage.

RATHER DIFFERENT .- Mr. C. T. Dupont, of the Inland Revenue, returned on Saturday evening from his official tour in British Columbis. He left Victoria, (V. f.), on the 12th with a boquet of roses grown in the open air. Mr. Dupont speaks in high terms of the country, and believes that when its resources are fully developed it will form a most valuable adjunct to the Dominion. His homeward trip was rather a protracted one, having occupied thirteen days of active travel. He gives the Pacific Railway a good character, for the comfortable cars and the attention of the Company's servants .- Ottawa Herald, Der. 30.

DESERTION -General complaints are made by captains of ships visiting the mills at Burrard Inlet, of the numerous cases of desertion by their crews. One ship here, the Seaforth, Captain Porter, is minus a dozen men, and experiences great difficu'ty in getting sailors to ship at anything like a reasonmembers of the Robinson and McGinley com- able figure. The Senforth is bound for Callao, but the captain fears he will have to go across to the Sound to ship his crew.

A gentleman now engaged on an agricul-tural journal in San Francisce, has in vain ent-eated our people to erect a melon-sugary for experiment. He confirms all that the British report states. He went to Zombar, in Hungary, in person, and thoroughly ex-amined the great melon-sugary and its simple processes, with a view to qualifying himself to introduce that industry in California; so that the way to its introduction is prepared. We can make the machinery in San Francisco, for it is simple; nothing stands in the way of our farmers going into it during the present year .- Saucelito Herald.

A Political Barthquake.

[From the Nova Septian.] Bismarck has not been impeached and be-headed by the Prussian Junkers, nor Louis Napoleon invited to remount the throne by M. Thiers. No, reader, we will not dally with your impatience. But on the Northern shores of the great Pacific Ocean that Vasco Nunez de Bilbea first saw from the summit shores of the great Pacific Ocean that Vasco

The McCreight Ministry (sic) has been defeated by a majority of one! Think of it, gentle reader, and pause as you contemplate will have the coast Indians regularly visited with awe this astounding catastrophe. "Chops and tomato sauce" we involunt trily utter in thus enable its representatives to enforce the

significance is hidden under these apparently simple words! Yes, the "McCreight Ministry has been defeated by a majority of one"!

Now to the explanation of this mystery flashed over the wires to us from Canada. British Columbia will be best known to our readers as the latest admitted province of the Dominion-with a population of 10 000 white souls, (including twins) and a ful blown representation of nine members of Parliament
—which has saddled us as the price of its adission with the construction of a railroad through 2700, miles of wilderness at a cost of \$100,000,000. That, it will be admitted, 5th of January, and the recruiting is ex-ected to be completed by the 15th of Feb-uary.

Another important discovery has just been 10 000 content with these limited represen-

Under the perietyle is a fountain in a niche, decorated with shellthe same it appears that elected Sir Francis Hincks -- is represented not solely by that gallant Knight, but locally by another dis-tinguished "statesman," Dr. Ash, the votes at the last contested election standing for Dr. Ash 16, for Mr. B. Coleman 8! The crown of all these political splendors, however was the "McCreight Ministry," for the startling an nouncement of whose fall we have thus who has been for forty years chief reader at the Great Synagogue in London. He was But still we heard hurried whispers—"Why fali?" Explain the sudden cause of this po-

litical convulsion. Know, then, gentle reader, that that fiery Knight, Sir Francis Hincks, of the Horse Marines, is again at the bottom of the mystery. It appears that Lieut Gov-ernor Trutch. "Mister McCreight" and some Pacific Bismark, to the writer unkuewnforming what is known as the British Columbian Triumvirate—unconsitutionally, illegal-ly and of malice aforethought, did against the high prerogative of the Legislative Asnduce these sixteen free and independent ve-Memory presides over the past. Morth-West Coast Indians.

EDITOR STANDARD :- The remembrance the massacre of many white men by the Chilcotin Indians, together with its consequences that in the United States, so far, beet sugar- and the prospect of a railroad passing through though sugar has been made, there is no in-crease of sugaries.

One of the worst nations of Indians in British Columbia, obliges me to direct your attention crease of sugaries.

Regarding California, the Report says that four years ago the fact was proved that sugar beets grown there from European seed yielded the usual per cent. of sugar; and that the climate advenced the product per series are purished for their murders and other the climate advenced the product per series. the climate advanced the product per acre outrages upon both white men and Indians, fully fifty per cent. In addition, the faralthough there possibly may be some cases unknown to me. I have heard that during favor of the time of the Hon. Hudson Bay Company's rule, three slaves were killed to atone for the murder of white men. A few years ago some PLUMMER & PAGDEN, Indians and I paid for the bark taken from a white man ; in this case, as in the former, the guilty parties escaped unpunished.
About ten years ago two white men were killed, for whom, an Indian was tried and released, as far as I can ascertain. Five years ago two white men were killed and their vessel sunk ; shortly after a fight oc-Indians, some of whom were killed; in neither case was justice done. Happily, very few small vessels have ever since passed through that district. I pass over the minor outrages committed upon white men by Indians, such as a grarrel between the second corrections and the second corrections and the second corrections and the second correction to dians, such as a quarrel between prospectors for copper and Iudians, opposing their working the land, etc. Justice has always been

As for the murders that occurred between the Indians themselves in former times, I have heard only of the Clio's affair, which I believe was occasioned by the killing of a slave to feed some cannibal master dancers at Fort Rupert; but everyone knows how, afterwards, the Indians were made to believe this day some of their speakers at their meetings mention it as a proof that the white men are as bad as themselves. Since the Clio's affair the Indians, upon introductions given myself, gave information of two cases hardly expect to prevent Indian fueds. More Sth.—The oil from melon seed is superior of the most atrocious and cold blooded, have of the .—Twenty-five thousand dollars fits out dians in a cance, but the murderers were left unmolested. Many other murders, and some

would require double that amount.

This report should be attentively considered in California. On the broad earth there wen upon the mere report, be it true or not, of the manner is which some of them were of the manner is which some of them were posed; but they are overruled by the wicked Indians, especially by those who are in the habit of visiting Victoria. They say the gov-ernment of the white men do not care what the natives do in their own country, and mention how often the government's man of war vessels have passed without noticing them. May I give as my humble opinion. that if a general Indian war be impossible, repetition of the Chilcoatin affair and seriou troubles will not take me by surprise, when the mineral wealth of the district will attract prospectors and miners. The enormou amount of whisky carried amongst them ren-ders it more than probable. Indeed, the last four years I have not heard of any white man bringing liquors to the Indians of the district but the Indian traders come regularly to Vic-toria to buy it, and trade it among their own The Buildings on town lots 1103, trading whisky to Indians. Nothing short of a severe punishment of the Indians trading and Barber Shop. the towns and settlements of white men, etc.

thus enable its representatives to enforce the the eloquent language of the immortal Ser-geant Buzfuz. What tremendous political have heard many Indians express the wish that it should be so. They see their own people fade away, and feel very bad about . For instance : nineteen Fort Rupert In-

dians were drowned on account of having too much liquor, although the whisky traders deny it; eight or ten Mamalilekullas died very shortly after a series of whisky feasts.

Justice obliges me to say that the Homathkes, Clohass, and Seashales, are races totally different from their northern neighbors. I always counted them amongst the best Iu-dians of British Columbia. There has been o whisky drinking in seven of their villages the last ten years. In justice also to the Eak letaws and other tribes, the subjects of this communication, I must say that, if in the be-ginning the Indians robbed several times our house at Fort Rupert, they have never done t since we are on Harbledown Island, nor committed any depredation in our garden, which is open on every side, thus showing decided improvement in this respect, as well

as in some others. I have the honor to be, Sir, your obedien servant, L. FOUQUET, O.M.I.
